SUMMARY

Final-year Computer Science & Engineering student (CGPA 8.85/10) with hands-on full-stack development experience across the MERN and PHP/MySQL stacks. Built and shipped three end-to-end applications spanning React front-end architecture, Node.js/Express REST APIs, MongoDB and MySQL schema design, JWT-based authentication, and role-based access control. Completed a full-stack web development internship covering the complete software development lifecycle, from requirements through deployment. Solid foundation in data structures, algorithms, object-oriented programming, and database management systems, with additional applied coursework in cloud computing, generative AI, and data analysis. Seeking Software Engineering, Full Stack, Backend, or Frontend roles.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, PHP, C

Frameworks & Libraries: React.js, Node.js, Spring Boot, Bootstrap 4, jQuery

Databases: MySQL, MongoDB

Core CS: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems

Cloud & AI: Cloud Computing Fundamentals, Generative AI, Prompt Engineering, Data Analysis

Tools & Practices: Git, GitHub, VS Code, XAMPP, RESTful API Development, Responsive Web Design

PROJECTS

ShopNest — E-Commerce Platform (MERN Stack)

github.com/heyryayo/ShopNest

- Architected a full-stack e-commerce platform using React.js, Node.js, Express, and MongoDB, covering product browsing, cart, and checkout flows
- Designed MongoDB schemas for product catalog, cart, and transactional order data
- Implemented JWT-based authentication to secure user sessions and protect API routes
- Built an admin dashboard for inventory and order management

Stack: React, Node.js, Express, MongoDB, JWT

Suryavanshi Clinic — Hospital Management System (Academic Project)

github.com/heyryayo/Suryavanshi_Clinic

- Engineered a Hospital Information System managing patient records, appointments, prescriptions, lab reports, pharmacy inventory, payroll, and billing
- Modeled a relational MySQL schema spanning patient, staff, prescription, lab, pharmacy, payroll, and billing data, supporting CRUD-intensive operations
- Implemented role-based access control to differentiate admin, medical, and pharmacy staff permissions
- Developed a responsive front end using Bootstrap 4, HTML5, CSS3, and jQuery

Stack: PHP, MySQL, Bootstrap 4, HTML5, CSS3, jQuery

Grand Line — Restaurant Website

github.com/heyryayo/grand_line

- Delivered a full-stack restaurant website during a live software internship, featuring a dynamic menu, reservation system, and admin panel
- Built database-driven menu pages with server-side rendering and form validation for reservations
- Configured an admin panel for content management, enabling staff to update site content directly

Stack: PHP, MySQL, HTML5, CSS3, JavaScript, XAMPP

PROFESSIONAL EXPERIENCE

Web Development Intern, Visanet Software Private Limited

Jun 2023 – Jul 2023

6 weeks, on-site

- Contributed to the full-stack development of Grand Line, a production restaurant website, across the complete software development lifecycle
- Developed front-end pages that improved visual presentation and user experience, and implemented server-side logic in PHP integrated with MySQL
- Configured and maintained local development environments using XAMPP to support consistent team testing and iteration

Technologies: PHP, MySQL, HTML, CSS, JavaScript, XAMPP, VS Code

EDUCATION

B.Tech, Computer Science & Engineering — CGPA 8.85/10

2024 – 2027 (Expected)

Maharashtra Institute of Technology, Chhatrapati Sambhajinagar

Diploma, Computer Engineering — 84.44%

2021 – 2024

Government Polytechnic Washim (MSBTE)

CERTIFICATIONS

Introduction to MongoDB — MongoDB University • Introduction to Cloud Computing — Google/Coursera • Introduction to Generative AI — Google/Coursera • Git and GitHub — Udemy • Prompt Engineering — Coursera/IBM • Introduction to Vibe Coding — Microsoft Learn • Python for Data Science — Coursera/IBM • C Programming — MCCE • Data Analysis Using Python — Coursera/IBM
